REQUESTS TAFT TO END BOYCOTT

Manufacturers' Association Asks Punishment of Labor.

PLEADS FOR CORPORATIONS

More Liberal Treatment of Great Combinations of Capital and Dissolution of the American Federation of Labor Are Urged in Resolutions Adopted—Federal Eight-Hour Law Denounced as Vicious.

New York, May 18.—Protests against the boycott and pleas for more liberal treatment of great corporations were voiced at meetings of the National Association of Manufacturers.

Howard Elliott of St. Paul, president of the Northern Pacific railroad, at the association's dinner declared the development of the country was brought about by the forces of collectivism, as individuals alone would have been impotent against the obstacles of nature. The business of a land so great can be carried on only by organizations relatively great, he said; it is the duty of every patriotic American to combat the trend toward foolish interference with business, led by demagogues and dilettantes.

The association asked President Taft to end the boycott for all time by seeking the punishment or dissolution of organizations enforcing it, among which the American Federation of Labor was named. Resolutions adopted by the association ask the president to investigate the grievances through the department of justice.

Another resolution condemns the federal eight hour law as "uneconomic, vicious and dangerous. Another pledges the association to the open shop. State compensation of injured workmen and an international court of arbitration are favored, as well as the establishment of an American merchant marine.

M'CUMBER HAS AMENDMENT

Changes in Pact Also to Apply to Products of All Countries.

Washington, May 18.—Elaborate changes in the Canadian reciprocity agreement are proposed in an amendment offered by Senator McCumber. It is proposed to reduce the present rates of duty on nearly fifty specified articles, including earthenware, tinware, wire, hats, sugar, carpets, furniture, cotton cloth, gloves, hosiery, dress goods, automobiles, farm trucks, pianos, underclothing, axes, shovels, stoves, knives and forks, agateware, sewing machines, window glass, rice, figs, jute bags, glassware, rubber goods, books, clocks, watches, bicycles.

Senator McCumber also proposes to admit the following products free of duty: Tin plate, salt, oranges, lemons, baskets and lead.

ASK FOR RETURN OF MONEY

Subscribers to Deltz Fund Will Take Action.

Milwaukee, May 18.—The latest development in the Deltz case is a demand to be made from all parts of the state for the return to subscribers of money collected by Deltz on his trips about the state seeking funds for his defense.

The demand is likely to take the form that as Deltz did not engage a lawyer and conducted his own defense the money should be returned. The amount he obtained is difficult to learn. Reports here, however, are that the total was nearly \$22,000.

MEXICAN SOLDIERS DESERT

Rob Paymaster of Large Sum and Go Over to Rebels.

Sabinas, Mex., May 18.—After robbing the paymaster of the National railroad lines of 79,000 pesos, releasing the prisoners in the federal garrison at the town of Monclova and seizing 250 rifles and 35,000 rounds of ammunition, a detachment of twenty-five federal troops and sixteen recruits, led by a lieutenant, are en route to join the rebel band of General Santa Fuentes.

A Conservative Pointer.
Rev. Mr. Gude—"The question is, brethren, how we shall send salvation to the Fiji Islanders."

Deacon Tightwad—"Though I am not intimately familiar with the present case, I would suggest that we send it collect.—Puck."

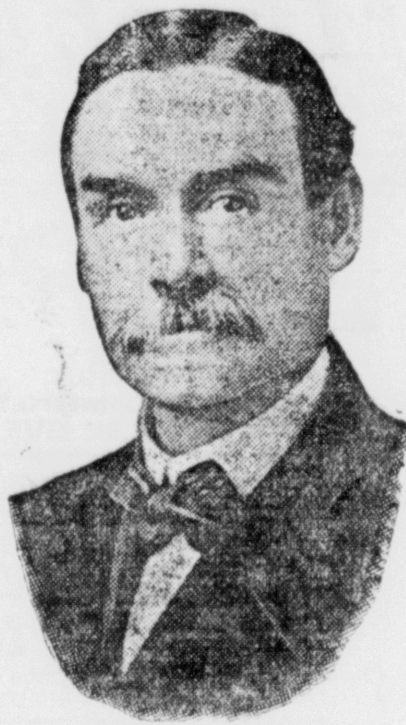

BUTTE MINERS SUSPICIOUS

Say Treaty With Britain Would Cement Ranks of Capitalists.

Butte, Mont., May 18.—The Butte Miners union, parent body of the Western Federation of Miners and the biggest labor organization in the Northwest, adopted resolutions denouncing the proposition to arbitrate a treaty between the United States and Great Britain. The idea that it would tend toward the firmer establishment of peace was scouted, the resolutions declaring its purpose to be the stronger cementing of the capitalists of the country against the democratic classes.

SENATOR CRAWFORD.

Makes an Attack Upon Reciprocity With Canada.

WITH FRANCE AND ENGLAND

Secretary Knox Submits Draft of Arbitration Convention.

Washington, May 18.—The principle of arbitration of practically all disputes between nations, including even questions of vital interest and national honor, assumed vitality when Secretary of State Knox submitted to the British and French ambassadors at Washington the draft of a convention to serve as a basis of negotiations. The fact that this world movement would be inaugurated with France, as well as Great Britain, came as a surprise, as it was generally understood that only the United States and England were concerned in the initial steps.

The secretary of state has evolved a document, which has received the approval of the president and the other members of his cabinet, providing that all differences which are internationally justifiable shall be submitted to arbitration. It expands the scope of the existing arbitration treaties by eliminating the exceptions referring to "questions of vital interest and national honor."

THROUGH BRIBERY AND CORRUPTION

Illinois Legislative Report on Lorimer's Election.

Springfield, Ill., May 18.—The report of the Illinois senatorial committee appointed to investigate the circumstances surrounding the election of William Lorimer to the United States senate was returned to the senate.

The two most vital principles in the report are a criticism of Judge Pett for his ruling in the habeas corpus case involving Edward Tilden, Cummings and Mitchell, and this expression:

"Your committee has reached the conclusion that the election of William Lorimer before the last general assembly would not have occurred had it not been for bribery and corruption."

AFFECTS NINE BIG CONCERNS

Decision of Supreme Court in Standard Oil Case.

Washington, May 18.—In nine great combinations and in almost as many more smaller prosecutions, pending or planned, under the Sherman anti-trust act, the government has had its work almost doubled, it is declared, by the ruling of the supreme court in the Standard Oil case, as a combination in restraint of trade to be illegal must be proved "unreasonable."

The concerns against which inquiries have been or will be started are the beef, bathtub, steel, electricity, coal, paper, window glass, steamship and sugar combinations.

Word done by special agents from the department of justice may have to be done over to a large extent. It is even possible that several cases against the smaller concerns may have to be abandoned.

COLLAPSES FROM EXCITEMENT.

Philadelphia, May 18.—Frank S. Elliott, vice president and one of the owners of the Philadelphia National League Baseball club, fell unconscious in his private box at the ball park a moment after the game with Cincinnati had been won by a home run drive by Luderus in the eleventh inning. It is thought the excitement caused Mr. Elliott's collapse. His condition is regarded as critical.

DISASTROUS FIRE IN MANCHURIA.

London, May 18.—A Harbin dispatch says that in the recent fire in Kirin, Manchuria, 8,387 buildings were destroyed, 40,000 people made homeless and a property loss of \$20,000,000 inflicted.

SOUTH DAKOTAN SCORES TREATY

Senator Crawford Attacks Canadian Reciprocity.

ABANDONMENT OF GRAVE DUTY

Claims Agreement Would Fail to Promote the General Welfare and Would Do Irreparable Harm to Agriculture—Discriminates Against the Farmer in Favor of the Trusts, Canada and Newspapers.

Washington, May 18.—The reciprocity agreement with Canada was characterized as a "cowardly abandonment of a grave duty," in a speech delivered in the senate by Senator C. I. Crawford of South Dakota.

Mr. Crawford spoke for several hours in opposition to the agreement. He charged that not only would it fail to promote the general welfare, but that it would do irreparable harm to agriculture. Indeed, he declared it to be a discrimination against the farmer in favor of the trusts and of Canada. He found in it especial efforts to favor the newspapers. The president's contention that it would reduce the cost of living he would not accept.

Asserting that the principal beneficiaries under the bill would be the trusts Senator Crawford mentioned many of them, among them the linseed oil, the brewing, the distilling, the beef and the manufactured food companies.

Mr. Crawford paid his respects to Governor Foss of Massachusetts, declaring that "we have allowed Canada to tickle the adherents of Governor Foss of Massachusetts and the selfish and highly protected manufacturers of New England through this treaty into a cold blooded betrayal of the American farmer." He asserted that in effect Mr. Foss was laboring in behalf of the millers' and brewers' trusts of Massachusetts rather than for a reduction of the cost of living.

CRITICISES PUBLICATIONS.

Charging one great purpose of the bill to be to put news print paper and wood pulp on the free list Mr. Crawford asked why this was so. Replying to his own question he said:

"Simply because the great newspapers and the great magazines of the United States—as a special class—aggressively organized for the purpose, demand it and propose to get it as a special privilege."

Mr. Crawford fell into prophesy, saying: "Instead of leading in the system which is developing an empire in Canada, and which enables Germany and France to keep first place in the world of agriculture, commerce and manufactures, the United States will follow England in a policy which in many ways is adapted to the needs of the two small islands known as Great Britain, but which is not adapted to the needs of a nation like ours—the possessor of half a continent with infinite possibilities in the yet undeveloped resources of its soil; the adoption of a policy in which the country is to yield forever the scepter of power and influence to the city; a policy which will soon change the entire character of our institutions and the quality of our citizenship."

The address of Governor Osborn of Michigan, favoring the passage of the Canadian reciprocity bill, featured the hearing before the senate finance committee on the reciprocity and free list bills.

Governor Osborn expressed the opinion that Canada could not compete successfully with the United States in the growing of wheat or in any of the other ways in which those opposed to the treaty fear. He said, however, that he looked at the pact in a broader way than an economic and fiscal one and that the great benefit this country would derive from the passage of the bill would be the "drawing together of the two nations for the future better friendship which would ensue."

SCORES USE OF TOBACCO

Man Who Said Apples Would Cure Drink Habit in Limerick Again.

Des Moines, May 18.—Dr. Samuel Bailey of Mount Airy, in an address at the meeting of the Iowa State Medical association, scored tobacco and its use in the strongest terms. He declared that tobacco using poisons the nervous system and robs the user of his moral tone. He asserted that the use of tobacco in the earlier days is responsible for much of the troubles of today.

NEW BRITAIN CURRENCY.

Dewarra, a currency of New Britain, is an instance of how the spoils of the chase may be turned to account as the outward and visible sign of wealth. Dewarra is made by stringing the shells of a dog which upon the ribs of palm leaves. These strings may be retailed at so much a fathom—usually the price is equivalent to about 75 cents a fathom length—or they may be made into various articles of personal adornment to be worn on great occasions. In New Britain the dewarra hoarded up by a rich man is produced at his funeral and divided among his heirs in much the same kind of way as personal property is divided among us.

SENATOR CULBERSON.

Introduces One of Three Amendments to the Anti-Trust Law.

AMEND THE ANTI-TRUST LAW

Three Bills Introduced in Congress to Counteract Court Decision.

Washington, May 18.—Three bills were introduced in the senate to amend the Sherman anti-trust law to include all combinations in restraint of trade, whether "reasonable" or "unreasonable." The authors are Senators Jones (Rep.) of Washington, Culberson (Dem.) of Texas and Reed (Dem.) of Missouri. All are suggested by Justice Harlan's dissenting view in the Standard Oil case decided by the supreme court Monday.

The Culberson bill would prohibit all such combinations "of whatever character." The Jones bill would make all combinations illegal "whether reasonable or unreasonable." The Reed bill would hold all combinations "unreasonable" and illegal in all proceedings in law and equity.

Nobody expects any action at the special session, although indications are for a widespread agitation to amend the existing law.

BLOW AIMED AT BIG WHEAT BULLS

Chicago Dealers Must Not Sell Grain Below Market Price.

Chicago, May 18.—Action taken by the directors of the Chicago board of trade is regarded as a knockout blow to grain manipulators in this market. It came in the form of a resolution, adopted after a sharp fight, branding as "uncommercial and dishonorable conduct" the practice of marketing in other cities grain held in elevators here at prices below the relative price easily obtainable on the Chicago board of trade.

The blow is aimed at the big wheat bulls, who are now closing up their deal in the May option. It may result in a break in wheat quotations, with attendant heavy losses to the men, who, as the result of the May campaign, have large quantities of that cereal on hand.

It is the "follow up" to the action of the directors Tuesday ordering an investigation into the May deal. What approaches closely to a serious scandal has grown out of this operation.

J. D. ELLIOTT IS CONFIDENT

Convinced He Will Land South Dakota Judgeship.

Washington, May 18.—James D. Elliott of Aberdeen, who has been endorsed by Senator Gamble for appointment as district judge in South Dakota, left for home. Mr. Elliott came to Washington at the instance of the administration officials and during his visit had conferences with President Taft and Attorney General Wickersham. He goes away convinced that he will soon be named to fill the vacancy created by the transfer of John E. Carland to the commerce court.

FIRST WOMAN TYPIST DEAD.

St. Louis, May 18.—Mrs. Margaret A. Weller, the first woman to operate a typewriter, is dead at the Jewish hospital. She was sixty-eight years old.

FIVE ARE MISSING IN FIRE

Winnipeg Garage Burns, Causing Loss of \$250,000.

Winnipeg, May 18.—In the destruction by fire of the Central garage on Water street seventy-five automobiles were burned and five employees are missing. Several horses were burned to death. The loss is placed at \$250,000.

HOUSE LIBRARIAN RESIGNS.

Washington, May 18.—John J. Boobar of St. Cloud, Minn., for eleven years librarian of the house of representatives has resigned that position, to take effect June 15. Mr. Boobar will engage in business in Washington. The St. Cloud man came here in 1897 as secretary to Page Morris of Duluth, who served two terms in the house.

END OF SESSION IS NOT IN SIGHT

Congress Likely to Last Until September.

SENATE TAKING ITS TIME.

Senators Believe That Canadian Reciprocity Is Daily Becoming Less Popular, and They Wish to Delay Action. Free List Bill and the Lorimer Case Will Also Make Talk.

By ARTHUR W. DUNN.

Washington, May 18.—[Special.]—Congress has been in session six weeks, and it is just about six weeks to the 1st of July. There were wise ones who said that congress would adjourn before the glorious Fourth. I do not know where they are now, but it is evident that at the pace it is proceeding congress will not get away from Washington until September.

The Democrats have not much more than begun upon their tariff program, although it will be impossible to take up as much time on any one bill as was occupied on the free list bill. It looks as if most of the house members were about "talked out."

But the senate has not commenced. That body is deliberative, and there are a lot of senators who intend to deliberate the Canadian reciprocity agreement as long as possible. They fancy that it is becoming more and more unpopular each week and that if it can be delayed long enough it may be defeated. But that is not likely. At the same time there is a prospect of a lengthy session before the tariff bills are passed.

Other Talk Makers.

If the reciprocity agreement and the free list bill did not furnish enough senatorial conversation there are the election of senators by direct vote and the campaign publicity bill, the reopening of the Lorimer case and a few little things like the disturbance in Mexico, with almost any other topic that may come up to hold the senate in session.

The only hope people have who want to see congress adjourn is that the members will get tired of staying here during the hot weather and will seek any old excuse to adjourn.

It Is Really Amusing.

Now, really there is nothing more interesting in Washington than a day in the house when such men as Uncle Joe Cannon, Seneca E. Payne, John Dalzell and James K. Mann criticize the Democratic majority for "steam roller" methods, for hidebound caucus action and similar taunts and slurs.

"Not one of you dare vote your convictions," shouted Payne, erstwhile majority leader. "You are bound hand and foot by caucus dictation." That was amusing, for the same thing has been done in the faces of Republicans for sixteen years—well, perhaps fourteen years is more accurate, for the last two years there has been a breaking away from the Republican caucus. Payne, Cannon, Dalzell, Mann and the others always worked the caucus method. They carried it as far as they could and finally created a crop of insurgents which downed the Republican party.

That is what makes it so funny to hear them shouting caucus dictation to the Democrats. If one could reverse the terms and names the language of the Democrats for fourteen years is now being used by the Republicans in the first days of their minority.

What You Can Do With Figures.

We were all under the impression that the Democrats carried the country last fall and were in the majority in the house at least, but according to figures produced by Congressman Sloan of Nebraska the Democrats are a minority party.

Here is the way he makes the figures talk: The Democratic candidates for congress in the last election received 5,721,580 votes, the Republican candidates 5,592,814. The Democratic plurality being 128,766. But the total vote cast for all candidates opposed to the Democratic candidates was 6,320,180. Consequently the Democrats lacked 598,600 of a majority.

But that did not faze the house Democrats. They went ahead and pushed the steam roller over the Republicans without regard to those figures.

A Colorado Insurgent.

When amendments were in order, or, rather, in view of the prompt rulings of Chairman Alexander of Missouri, were out of order, to the free list bill Congressman Rucker offered one retaining the duty on meats.

"There are several distinguished features about this amendment," said Rucker. "One is that it is about the most unpopular amendment that has been offered here today. Another is that it is offered by about the most unpopular fellow just at this time on this side of the house. Another is that it will get about only one vote on this side of the house."

Then he made a plea for the stock raiser. "The day of the cattle baron has passed," he said. He went on to say how they used to drive cattle from Texas to Chicago and from the Rio Grande to the Canadian boundary, but that is now all gone with many other interesting features of the great west.

Heat Fells Chicagoans.

Chicago, May 18.—The thermometer rose 20 degrees in a few hours, reaching 90 degrees at 4 o'clock, and caused a number of prostrations.

DE LA BARRA TO BE PRESIDENT

HAL CHASE.

Manager of Yankees Will Be Out of the Game for a Month.

HAL CHASE HAS PNEUMONIA

Manager of Yankees Will Be Out of Game for a Month.

Cleveland, May 18.—Hal Chase, manager of the crippled Yankees, will be out of the game for a month himself.

His physician here declares Chase is suffering from bronchitis and that he may have pneumonia. His face is swollen to twice its normal size. He has been ordered to rest and he will be taken to New York as soon as his condition warrants it.

Poor Johnny.

Nervous Mother—Mary, find out what Johnny is doing and tell him to stop it. Mary—He's asleep, mum.

Sheep—Native, \$2.25@4.75; yearlings, \$4.00@6.60; lambs, \$4.75@6.70.

Mexican Executive and Vice President Will Resign.

MADERO GOING TO CAPITAL

Rebel Commander Will Act as Chief Adviser to De la Barra Until After the Election of Another President. Cabinet Will Be Reorganized—Government Completely Surrenders to the Revolutionists.

Mexico City, May 18.—President Diaz and Vice President Corral will resign before June 1. Minister of Foreign Relations de la Barra will become president ad interim.

Francisco I. Madero, the revolutionary leader, will be called to the City of Mexico to act as De la Barra's chief adviser and at the greatest guarantee possible that every pledge made by the government will be carried out.

As viewed by the public it will be virtually a joint presidency, pending the calling of a new presidential election.

The cabinet will be reorganized. The minister of war will be named by De la Barra. The foreign office will be in charge of a sub-secretary named by De la Barra. Other cabinet members will be chosen by De la Barra and Madero, acting jointly.

A new election will be called within six months. Political amnesty will be recommended to the chamber of deputies.

These are the conditions upon which President Diaz will compromise. They are admitted in high quarters to be a complete surrender to the revolutionists.

The resignation of Diaz and the "joint regency" of De la Barra and Madero are said to constitute a guarantee so complete that the original insurgents demand for fourteen governors no longer needs to be considered.

The government's conditions were telegraphed to Judge Carbajal with instructions to submit them to General Madero. If they are accepted, which is regarded as certain, an armistice covering the entire republic of Mexico will be agreed upon. It is believed a treaty of peace will follow.

PROFESSOR BOYLE'S OPINION

North Dakota Farmers Are Not Opposed to Pact.

Washington, May 18.—That the "farmers" opposition to Canadian reciprocity is led by "political agitators" and that the farmers of North Dakota and other border states are really not opposed to the pending trade agreement is the substance of a statement by James E. Boyle, professor of economics at the North Dakota state university.

"The sentiment among our farmers is in reality indifference to reciprocity," said Professor Boyle. "They reason that in a measure it may reduce the cost of living and that it will help more than hurt them. The significant feature of the sentiment among them is not so much that they are wild over reciprocity as that there is no opposition to it."

"There are some sincere men who believe the agreement may hurt, but these are few and far between. There are others who have been influenced by persons who have told them their land values will decrease and they will face ruin and starvation if the bill goes through. Most of the farmers, however, realize this is merely professional politics. They see the effort of the politician to make reciprocity a political issue."

CARNEGIE IS WELL PLEASED

Decision Establishes New Commercial System, He Says.

New York, May 18.—Andrew Carnegie thinks the Standard Oil decision was one of the most important events of the times. He declared that it was a good decision and would cause no disturbance of commerce or capital.

"We will," he continued, "establish a new commercial system. We will have a new commercial life. We will have a court of commerce, which will be to industry what the supreme court is generally to our nation and laws. It must be seen that combinations being allowed, regulation must follow. We have discarded a worn-out system and adopted a new system, adaptable to our times. I am a happy man at the reading of that decision."

GAINS BY ARMY CHANGE

Fort Snelling to Be Made Larger Military Post.

Washington, May 18.—July 1 steps will be taken by the war department looking to the development of Fort Snelling into one of the biggest military posts in the United States. Snelling will then become a brigade headquarters and as such will be enlarged along lines now under consideration by General Wood, chief of staff, and by Representative Stevens of St. Paul, who, as a member of the house committee on military affairs, has kept in close touch for years with the general and department officers of the army service. The enlargement of Snelling and the location there of the headquarters of the department of the Lakes will be a good thing for the Twin Cities commercially.

The North Star society gives a dance at Odd Fellow hall this evening. Music will be furnished by George Greveco and a pleasant time is anticipated.

Conductor William Denny and his wife, of Duluth, are sick, and Mr. Denny's place on the noon train from Duluth was temporarily taken by Conductor Harris.

Supt. K. M. Nicoles private car was attached to the Duluth train this afternoon. Accompanying Mr. Nicoles was assistant superintendent William H. Strachan.

John Larson is local agent for Stott Briquets, a new and very economical fuel. A car load has just arrived. Send in order and try it. 158-11

F. W. Adgate, superintendent of the Foundation Co., of New York, who has been inspecting the work of the company at the Thompson shaft arrived in Brainerd today on his way to Chicago.

The ladies of the Maccabees will give a card party at the Citizens State bank hall on Friday evening. Light refreshments will be served and only a moderate charge of 15 cents made. All are cordially invited to attend.

Save Child From Death
"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." For coughs, colds, hoarseness, lagrippe, asthma, croup and sore lungs, its the most infallible remedy that's made. Price 50c and \$1.00. Trial bottle free. Guaranteed by all druggists. tts

GO CARTS
We have the latest in go-carts and English Perambulators. Terms easy. W. S. Orne, 716 Laurel St.

Practical Religion.
The story is told of a little housemaid, far over the sea, who, when asked whether she realized that she was in any way different after uniting with the church from what she had been before, thought for an instant and then, smiling brightly, said, "Well, I sweep the corners." She could hardly have given a better demonstration of the reality of her religious life.—Christian Herald.

A Burglar's Awful Deed
May not paralyze a home so completely as a mother's long illness. But Dr. King's New Life Pills are a splendid remedy for women. "They gave me wonderful benefit in constipation and female trouble," wrote Mrs. M. C. Dunlap, of Leadville, Tenn. If ailing, try them. 25c at all druggists.

"Round Ticket" Stockings

For Boys, Girls and Ladies

Easy to Put On—Hard to Wear Out

The claim for children's stockings of guarantee against wear for a long and specific period of time naturally suggests to mothers that, to give such stockings unnatural strength, a character of material is used in their construction that makes the stockings coarser and heavier than their children should be expected to wear.

"ROUND TICKET" stockings for Boys and Girls are designed to meet the demand for stockings that will be Durable, Without Sacrificing Comfort. They are of superior construction, being made of Four-Thread Best Egyptian Lisle Yarn, with Pure Irish Linen Splicing in the Heels and Toes, thus being carefully and sufficiently re-inforced at such parts which get the most wear. Better than advertised "Guaranteed" hosiery sold at higher prices.

"ROUND TRIP" Stockings—the Best 25 Cent Stocking Made.

EXAMINES TERRITORY

W. H. Gemmell Takes Distinguished
Party of Agricultural Experts
Over the M. & I. Route

W. H. Gemmell, the general manager of the Minnesota & International railway, has just returned from a trip over the railway in which he escorted a party of distinguished agricultural experts. The gentlemen included Thomas Cooper, of Minneapolis, a professor of the state agricultural college; E. Willard, development agent of the Northern Pacific railway; L. J. Bricker, general immigration agent.

Plans were formulated to better advertise the agricultural resources of the immense territory tributary to the railway and tentative steps were also taken to establish an agricultural experiment station at some point between Brainerd and Bemidji, and to use this station as an object lesson of what can be grown in this country and what degree of success can be achieved by pursuing proper methods.

When the entire plans are worked out Mr. Gemmell has promised the Dispatch an exhaustive write-up of this innovation for his territory.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY CO., Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out all obligations made by him.

WALDING, KINNMAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system. Testimonials will be given. Price 75c per bottle. Sold by all druggists.

Take Hall's Family Pills for constipation.

Knudson-Kretje

Iver Knudson and Miss Estella Kretje were married this morning at the court house and Judge J. T. Sanborn performed the marriage ceremony in the presence of numerous friends and relatives of the contracting parties. The groom is a prominent business man of Pequot and runs a meat market there. They returned today to their home bearing with them the best wishes of their friends.

Do Ghosts Haunt Swamps

No, never. It's foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only, 50c at all druggists. tts

The Fuller's Teazle.

No machine has ever yet been invented which can take the place of the fuller's teazle. The little closely massed flowers of this plant grow on heads which are covered with stiff hooked spines. These heads are greatly used in the manufacture of tweed and other fabrics which require a rough surface. They are set in large rollers, which pass over the cloth, and, while the little hooks raise the nap, they are too elastic to tear the material. Other inventions have been tried for this purpose, but none has proved satisfactory.—Pearson's.

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROWN GUININE TABLETS. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c. tts

Difficult to Attain.

The late Richard Mansfield was one who labored long and hard to achieve the best possible in his art of dramatic representation and who felt keenly his countrymen's deliberateness in according him due recognition. This might be read in a little incident told by William Water—one showing, too, Mansfield's tenderness toward children. Once, on a Staten Island ferryboat, he was sitting near a boy who wore a cap with three feathers in it. The child carelessly took off his cap and, swinging it, knocked the feathers out. The actor immediately picked them up and gave them to the lad, saying kindly, "When you are a little older, my boy, you will be more careful of the feathers in your cap."

BIDS FOR PAVING

Notice is hereby given that bids for the construction of the paving of Third avenue in the city of Brainerd, Minnesota, will be received by the undersigned at his office in said city on or before the 5th day of June 1911, at 5 o'clock P. M., and that said bids will be opened for consideration by the City Council of said city at the Council chamber of said city at 8 o'clock P. M., on the 5th day of June, 1911.

Each bid must be addressed to the undersigned, securely sealed, and properly indorsed on the outside wrapper with a brief statement as to the work for which bid is made.

The said pavement to be constructed according to plans and specifications on file in the office of the undersigned.

The City Council reserves the right to reject any and all bids.

V. N. RODERICK,
City Clerk, Brainerd, Minnesota.
5-18 to 22

RESOLUTION

Be It Resolved, that the salaries of officers for the ensuing term be and the same hereby are placed at the following amounts:

City Clerk Sixty-five (\$65.00) Dollars per month.
City Assessor Sixty-five (\$65.00) Dollars per month.
City Treasurer Forty (\$40.00) Dollars per month.
Chairman Board of Health Thirty-two (\$32.00) Dollars per month.
City Street Commissioner Three (\$3.00) Dollars per day.
City Assessor Five Hundred (\$500.00) Dollars per year.
City Pond Master and Sanitary Police Forty (\$40.00) Dollars per month.

Passed May 15th, 1911.
C. B. ROWLEY,
President of the City Council.

Attest:
V. N. RODERICK,
City Clerk.
Approved May 15th, 1911.
H. P. DUNN, Mayor.

RESOLUTION

Be It Resolved, that the City Clerk be, and he is hereby authorized and instructed to advertise for bids for the construction of the paving of Third avenue as heretofore ordered by resolution duly adopted, said bids to be received at the regular meeting of the City Council to be held at the Council Chambers at 8 o'clock P. M. on the 5th day of June, 1911; that said work is to be performed according to said resolution heretofore adopted and the specifications on file in the office of the City Clerk.

Passed May 15th, 1911.
C. B. ROWLEY,
President of City Council.

Attest:
V. N. RODERICK,
City Clerk.
Approved May 15th, 1911.
H. P. DUNN, Mayor.

RESOLUTION

Whereas, the city council has heretofore by resolution duly adopted, determined to expend the general sewer of said city, and has duly authorized Louis Knudson, an engineer, to estimate the cost thereof and draw plans and specifications and tabulate the results of his estimate of the cost of said sewer and report the same to the city council, and Whereas, said Louis Knudson has duly filed such plans and specifications and the tabulation of such estimates with the City Clerk.

Be It Resolved, that the City Clerk be, and he is hereby authorized and directed to cause proposals for bids for said work to be advertised in the official paper of the city and in a newspaper at the capital of the State as directed and required by Section 7, chapter 312, of the laws of the State of Minnesota, and to be received for consideration at 8 o'clock P. M. on the 19th day of June, 1911, at a regular meeting of the city council to be held in the council chambers in the City of Brainerd on said date.

Passed May 15th, 1911.
C. B. ROWLEY,
President of City Council.

Attest:
V. N. RODERICK,
City Clerk.
Approved May 15th, 1911.
H. P. DUNN, Mayor.

RESOLUTION

Be It Resolved, that the Water and Light Board be and they are hereby authorized to expend the sum of Seven Hundred Dollars in the laying of water mains heretofore authorized and ordered to be laid by the City Council.

Passed May 15th, 1911.
C. B. ROWLEY,
President of City Council.

Attest:
V. N. RODERICK,
City Clerk.
Approved May 15th, 1911.
H. P. DUNN, Mayor.

Application for Transfer of Liquor License.

To the Council of the City of Brainerd, Minnesota:
The undersigned, William Costello, hereby makes application to transfer his license to sell intoxicating liquors at, on and in the room and premises described as follows: to-wit: No. 301 So. 6th Street, on the ground floor in the city of Brainerd, from June 6th, 1911, until November 1st, 1911, to Thomas Bosley, No. 291 So. 6th Street, ground floor.

Dated May 9th, 1911.
(Signed) WILLIAM COSTELLO.
Said transferee has been licensed to sell intoxicating liquors in the City of Brainerd from May 24th, 1901 to May 5th, 1905.

Notice is hereby given that a hearing on the above application will be had on June 6th, 1911, at 8:00 o'clock p. m., at a regular meeting of the City Council of the City of Brainerd.

Dated May 9th, 1911.
V. N. RODERICK, City Clerk.
May 18-25.

Good Shoes for Men and Boys

COUNTY POOR FARM A VALUABLE ASSET

Comm. Krech Writes an Inter-
esting Communication Regard-
ing Bonded Indebtedness

CO. OWNS RICH IRON PROSPECTS

Royalty From Ore Will Wipe Out all
Indebtedness and This Will be
at no Distant Day

The Dispatch is pleased to give space to the following communication from County Commissioner Krech who takes issue with an article appearing in these columns some days ago regarding the bonded indebtedness of the county. A discussion of public matters is always productive of good and the people interested get information that would otherwise be denied them. Mr. Krech says:

Editor Dispatch: Have been a reader of The Dispatch practically ever since it was founded and it has always been a conservative and sometimes even an optimistic "booster" of Brainerd and Crow Wing county, and was therefore much surprised to see in last week's issue of the weekly, in big black headlines, on the front, or most conspicuous page, "County Bonded for 'Steen Hundred Thousand Dollars.'"

The publishing and advertising it broadcast through the Dispatch's large circulation not only at home, but abroad as well, for the Dispatch as well as its contemporary, "The Tribune" goes everywhere) is such a direct and distinct "knock" so much at variance with its long established policy of boosting that I am at a loss to figure out what the purpose of the article may be. It certainly will not have the effect of inducing capital to come here to build manufacturing plants nor of inducing farmers of other counties of this state or eastern states to come here and buy and settle upon some of our large area of vacant land, for naturally nearly everybody associates a heavy bonded indebtedness with a heavy tax rate.

If the Commercial Clubs of adjoining cities and the big land corporations of other counties don't use the article to our disadvantage, it will be because they are "asleep at the switch."

But while our bonded indebtedness is admittedly a heavy one, it is not nearly as bad from the general

tax payers standpoint as the article would indicate, and it is for this reason and for no other reason that this article is being written, for while the bonded indebtedness is no doubt the amount stated it includes many thousands of dollars of drainage bonds the payment of which will not cost the general tax payer one dollar. These bonds were issued to cover the cost of constructing these ditches, and the cost of each individual ditch was assessed against the lands benefited, and is made a part of the real estate tax and is made payable in ten yearly installments. The general taxpayer does not contribute a dollar towards the payment of these bonds. This fact your article does not bring out and this very materially reduces the indebtedness of the county as a whole.

The writer cannot agree with your opinion that the amount of our indebtedness is so large that no reader of the Dispatch will hardly live to see it all paid. Crow Wing county holds a very valuable asset in its poor farm property. It is well known by everyone at all posted in the iron ore situation that the county farm holds a very heavy and valuable deposit of ore, as indicated by explorations made on adjoining lands. The present board of county commissioners are unanimously of the opinion that the deposit is so extensive and of such magnitude that at the very fair and conservative price of 40 cents per ton royalty (the board has already refused an offer of 25 cents) it would pay the entire bonded indebtedness of the county twice over and in this opinion we are sustained by the best authority on the value of iron lands leased on a royalty basis, in the state, with the possible exception of the mining companies themselves. So confident are we that the county holds a very valuable ore property that if the United States Steel Corporation would make us a proposition to pay every dollar of our outstanding bonds as they become due, in exchange for the county's ore, unconditionally, we would decline the offer with thanks. Why? For the very good and substantial reason that it is worth more and if carefully handled the county will eventually realize more out of it. On account of the vast amount of ore known to exist in Crow Wing county, mining corporations are in no hurry to buy on a royalty basis, for the reason that they can buy ore much cheaper by buying acre property, but it is only a question of time when the county's ore

will be in demand, and that too at a price that will pay every dollar that the county owes, and then some. Just how far in the future this time may be is problematical, is a question upon which there is a wide difference of opinion, and will depend largely upon the extent of future development, but it is reasonable to hope and expect that it will come well within the lifetime of many, many present readers of the Dispatch.

To sum up the present situation in a nutshell, Crow Wing county is quite heavily bonded, as set forth so conspicuously in your article, but the county also holds a very valuable asset in its Poor Farm property, an asset which although not immediately available, is one that will never depreciate in value; an asset which if carefully and judiciously handled either by the present or some future county board must ultimately pay every dollar that we owe and that too without a dollar of direct taxation against the general taxpayers, with the exception of a small levy the present board has made for a sinking fund with which our auditor is taking up and canceling some four or five thousands of dollars of bonds yearly.

"Cheer up, Johnson," Crow Wing county's future prospects are bright, er.

C. A. KRECH.

SIDETRACK AT TOWN OF BARROWS

Northern Pacific Railway Section
Crews Have Commenced Work
Installing the Track

SEN. LAYBOURN BUYS LOT

Streets Being Graded, One House
Built and Cement Walks
Soon to be Built

Today section crews of the Northern Pacific railway are engaged in putting in the sidetrack for the new town of Barrows. The grading was about completed on Wednesday and the five teams and men were in charge of Contractor Bailey of Crow Wing station.

A large building of frame construction has been erected on Barrows avenue near Division street and will be used as a boarding house.

Several streets have been graded by Contractor Bailey and are now in proper shape for commencing the construction of the six blocks of cement sidewalks ordered placed in by the townsite company.

Among the out of town purchasers of lots is Sen. Laybourn, who has invested in two corner lots on Barrows avenue, the leading business street of the town.

The country school house located near the track will soon be removed to its new location west of Division street on the corner of First avenue north and Second street west.

As soon as active mining commences it is predicted that the rush for lots in Barrows will exceed the supply. There is a good opportunity now to get in on the ground floor. Yesterday the contract was let the H. H. Hitch company for laying the cement sidewalks. Telephone connection was made with Barrows Wednesday afternoon.

It Started The World

When the astounding claims were first made for Bucklen's Arnica Salve, but forty years of wonderful cures have proved them true, and everywhere it is now known as the best salve on earth for burns, boils, scalds, sores, cuts, bruises, sprains, swellings, eczema, chapped hands, fever sores and piles. FINDS MUSKET AFTER 50 YEARS

E. R. Jefferson, of Bay Lake, Recovers
Old Treasure and Passes Away
Three Days Later

BURIAL TO BE AT DULUTH

Two Men, of North Serpent Lake,
Charged With Allowing Fires to
Remain Unquenched

Deerwood, Minn., May 18—E. R. Jefferson, of Duluth, who has spent many of his summers at his residence at Bay Lake, passed away Tuesday afternoon in the presence of his wife just after he had completed a trip home from Deerwood. Mr. Jefferson was a man of about 67 years of age and leaves a wife and a son, who is studying at the university of Minnesota. The deceased was a prominent veteran of the civil war and served with distinction. He was a member of the famous First Minnesota and in its terrific charge at Gettysburg he lost a leg, and was otherwise severely wounded. And thereby is attached a most romantic story almost without parallel. Thrown to the ground by the shock of his wounds, many of his companions dead and wounded, fell about and on him. In the melee his musket was lost, for the hospital corps gathered up wounded and dying and paid little attention to weapons, no matter how much their owners may have treasured them. And Mr. Jefferson always regretted the loss of that gun. Some time ago he read an account in an eastern paper of an old musket which bore a curious monogram on its stock and correspondence eventually established the fact that the gun was the identical one that Mr. Jefferson had lost at Gettysburg. About three days before his death he received his treasure and was as happy as a boy upon acquiring it. His death was due to heart disease and the end came quickly and painlessly. Dr. Reid, of Deerwood, was called and performed an autopsy establishing the diagnosis he had made. The remains will be sent to Duluth on Thursday, and the funeral will be under Grand Army auspices and will be held there.

Charged with allowing fires to remain unquenched on the 72 acre farm of William Milberry, the proprietor and a man who worked for him, Henry Smith, had a hearing before Justice of the Peace Richard Johnson, of Crosby. The offense is alleged to have occurred about April 27th and it is claimed they started a fire on their property and that the fierce wind prevailing at the time caused it to spread and that Crosby people led by M. F. Crosby had their hands full extinguishing it. A change of venue was taken to Justice Coffin's court on Wednesday. County Attorney W. A. Fleming, of Brainerd, represented the state and Attorney W. H. Crowell of Brainerd, represented the defendants. When the case came up in the afternoon Attorney Crowell desired a jury trial and as a special venire was necessary, the case was continued to Saturday morning at nine o'clock by which time the panel of jurymen will be present.

The Augsburg young people society will give a concert at the Scandinavian Lutheran church on May 25. Local talent will contribute the various musical numbers.

The Methodist Ladies Aid quilting bee was held at the home of Mrs. Bartens on Thursday afternoon. All ladies were invited to attend whether they were members of the aid or not. Mr. and Mrs. E. T. Buxton, of Duluth, are expected to occupy their summer cottage on Reno lake about June 1st.

Miss Marie English, of Brainerd, is the guest of the Misses Bishop.

Mr. and Mrs. W. C. White, of Milwaukee, Wis., are now occupying their summer home on Reno lake. Dean Wilson and George Mahood, of Brainerd, were Deerwood visitors last Sunday.

Sunday Lincoln Legion services will be held at the Methodist church next Sunday morning. Rev. C. E. Brandon is the pastor of the church.

The Norwegian Ladies Aid society meets with Mrs. Anton Torgerson on June 1st.

The Imperial Quartette of Brainerd gave a concert under the auspices of the Methodist Ladies Aid society last Friday and it proved a very enjoyable event. Numbers were contributed by Brainerd and local talent.

Services will be held at the Scandinavian Lutheran church next Sunday by Rev. M. L. Hotsager, of Brainerd. Services are held at 10:30 A. M. and 7:30 P. M.

E. A. Lamb, Jr., of Michigan, N. D., is visiting Mr. and Mrs. E. A. Lamb. He is spending a few days on the Mesaba range with William Scaffold, the superintendent of the Helmer Exploration Co.

The ladies of the Catholic church met Wednesday afternoon with Mrs. M. S. Lamey.

J. E. Caine, general freight agent of the Northern Pacific railway was at Deerwood Wednesday and returned to Duluth in the afternoon.

The council met on Tuesday evening. Ed. Syverson, of Ironton, made application for a liquor license, which the council refused as the village by the terms of townsite deeds is esopped from allowing such requests. The matter of the dock application of the Ingalls Motor Boat Co. was re-

"Michael's" Specials

Last fall we gave an importer an order for a case of fine gauze hosiery, which under ordinary circumstances sells at 50c the pair. They are the shern kind that fashion demands and are dyed by Louis Hermsdorf which insures the best of dye. We offer these superb hose at 35c the pair or 3 pair for \$1.00.

Help for All

Andrew Carnegie once suggested as an epitaph for his own tombstone what he said was the secret of his success: "Here lies a man who surrounded himself with men abler than himself."

Many able people are working for you, scientists, inventors, manufacturers, all trying to make something you want. Do you use their brains and their efforts—"surround yourself with them"—or do you plod along by yourself, years behind the times?

Take your own home. Have you your share of modern improvements there—money-saving, labor-saving, health-promoting? One of the most important of these is a New Perfection Oil Cook-stove. A New Perfection stove never overheats a kitchen. It saves your strength. It saves fuel and time. With the New Perfection oven with the glass doors you can go on with your ironing or any other work, and still be sure at a glance the joint is roasting properly.

New Perfection
Oil Cook-stove

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc. Dealers everywhere; or write for descriptive circular to the nearest agency of the Standard Oil Company (Incorporated)

SPOKANE MAN WILL CONDUCT GAME FARM.

Doctor Will Raise Mink and Muskrats For Their Fur.

Two thousand acres in the lake district north of Athabasca landing, in the province of Alberta, have been leased by Dr. T. J. Burgen of Spokane and his associates in eastern Washington, who purpose operating a mink and muskrat farm as a commercial enterprise. The work of preparing the farm and stocking it with animals will begin early in June. Dr. Burgen said of the project:

"I do not recall having heard of a similar experiment anywhere in Canada, but I have devoted all of my spare time for seven years to careful investigation, and I am convinced that the undertaking will be a financial success."

"I was over the ground recently and chose the location. We are arranging to place 5,000 rats in the lake, which is well stocked already. Dark rats will be used, as the pelts are of a higher commercial value than the lighter varieties."

"The rats require no food other than what they can get themselves except in unusual cases. We shall prepare for emergencies by growing carrots, which will be fed to the animals if necessary. The muskrat pelts are worth from 50 cents to \$1 each."

"It is a much more difficult problem to handle mink, as special pens are necessary, and the net must be sunk deep into the ground so they will not escape. We shall obtain 500 animals when we begin operations in June and should have several thousand for commercial purposes a year from next winter. The mink will be fed on fish, which are abundant on our lease. We shall also handle some cattle, horses and dogs in connection with the fur farm."

KILL OFF DEGENERATES.

Preacher Pleads For the Lethal Application of Anaesthetics.

That the degenerates in Massachusetts institutions should be killed with an anaesthetic was the idea offered by the Rev. George W. Cutter of Boston.

"The boards of health of cities should hold physical examinations of applicants for marriage licenses, and only upon their approval should licenses be given," said Dr. Cutter.

"As it is now every boy who can get a dollar and the consent of his parents can get a marriage license, and often through the marriage propagates degenerates, criminals and insane people."

"There should be some anaesthetic used to eliminate the degenerates. Any one who has, like myself, spent any time in institution work knows that many who are in our state institutions would be better dead than alive."

Education—Yale, academic; Harvard, law.
Occupation—Lawyer.
Political Experience—United States attorney for the southern district of New York from 1905 to 1906; resigned to engage in private practice; named as special assistant United States attorney general to prosecute the sugar trust; fines of more than \$2,000,000 imposed on that monopoly through his efforts; convicted Charles W. Morse; secured conviction of five railroads for rebating; defeated by John A. Dix for New York governorship last year.
Military Experience—Member of Squadron A.
Affiliations—Former law partner of Senator Root; close friend of Theodore Roosevelt and Gifford Pinchot; friend of Attorney General Wickersham.

Henry L. Stimson, the new secretary of war in President Taft's cabinet, first came prominently into the public eye when as United States district attorney he conducted successfully a notable series of prosecutions against half a dozen of the big railroad systems for giving rebates to the sugar trust. Those prosecutions closely followed his appointment by President Roosevelt early in 1906. After he had twice convicted the New York Central before a jury, the Rock Island, the St. Paul and the Central Vermont all pleaded guilty, and the Great Northern, which held out, met the same fate as the New York Central in a jury trial.

There followed in close succession the prosecutions of various paper combinations and the beginning of the

cases against the American Sugar Refining company, which resulted in verdicts of guilty against the trust itself as well as against Charles R. Hieko, its treasurer; the superintendent of the Havemeyer & Elder refinery in Williamsburg and various men under him. The sugar trust customs frauds cases and other prosecutions for violation of the customs laws brought \$3,435,363 in fines and back duties into the United States treasury.

Prosecuted Morse.

The other big financial case of the Stimson regime in the United States attorney's office was the prosecution of Charles W. Morse and his conviction for wrecking the National Bank of North America. Mr. Stimson was still engaged in winding up the sugar cases when he resigned and was succeeded by Henry A. Wise in the spring of 1909. He continued as special counsel to the government until the last sugar trust defendant was convicted. Then came a period of the practice of law, in which he had been engaged from the time of his graduation from the Harvard law school, in 1891.

When the New York Republican progressives got control of the Saratoga convention last summer Theodore Roosevelt made Mr. Stimson his candidate for governor and brought about his nomination, which was followed by his defeat.

Since the first of the year Mr. Stimson has delivered several addresses that attracted attention, in which he placed himself in the progressive wing of his party. In state affairs he has declared himself a believer in the policies that Governor Hughes advocated.

Was Root's Law Partner.

Mr. Stimson is forty-four years old and a member of the law firm of Winthrop & Stimson, of which Senator Root was a member before he entered President McKinley's cabinet as secretary of war.

Mr. Stimson's appointment gives New York two places in the cabinet, George W. Wickersham of that state now holding the office of attorney general.

President Taft selected Mr. Stimson for the war portfolio on his own motion. The president has a high regard for the New York man, whose record in the office of United States attorney for New York was eulogized by Mr. Taft in the campaign last year. Otto T. Bannard, candidate for mayor against W. J. Gaynor, was under consideration for the appointment for a time.

It was explained in behalf of the retiring secretary, Jacob M. Dickinson, that most of his private fortune is invested in a coal company in Tennessee. The concern was recently placed in the hands of a receiver. In order to protect his interests Mr. Dickinson decided to resign. It is his purpose to return to his home in Tennessee.

PLAYS MARBLES WITH TOES.

Cincinnati Financier So Ordered by His Doctor.

M. E. Moch, vice president of the Cincinnati Trust company, has been directed by his doctor to play marbles with his toes every night and morning.

Mr. Moch is one of Cincinnati's big men. Recently he began to feel a numbness in his right foot. He got scared and hurried to Dr. Albert Froburg. The doctor felt the foot all over, then smiled, took a boy's marble out of a drawer and dropped it on the floor.

"Pick it up with your toes," he said to Mr. Moch. The latter tried for half an hour, then sat down, red in the face and blowing like a porpoise.

After an hour's practice at his home the financier was able to pick the marble up between his toes and toss it to the ceiling. The foot will be all right when it is limbered up, the doctor says.

Officer Robbed in Raid.

Los Angeles, Cal., May 18.—Jack Doyle's saloon, famous as a training camp for prize fighters, was held up by two masked robbers. The robbers stood seven men, including a constable, up against a wall, robbed and then locked their victims in the rear yard, which is surrounded by a high fence. The bandits escaped.
